## LEAD GENERATION MANAGER

### SUMMARY

I am a Lead Generation Manager looking for a full-time position in a company that's aimed at making both everyday life and business easier, more productive and user-friendly. I have experience in working with CRM, admin panel, Jira, Confluence, Clutch, LinkedIn. Likewise, I am a fast learner, responsible, and ready for challenging tasks. Dreaming of a successful career.

### PROJECT EXPERIENCE AS A DEVELOPER

- **Pro Test** [link](#) [Node.js, React, Redux, REST API, MongoDB] React application for testing QA Engineers. Role: Developer.

My task was: to create Test page and functionality for passing the test. Saving test results to a database. Possibility to start the test again or continue.

- **Kapusta smart finance** [link](#) [HTML, SASS, React, Redux, WebPack ]

Single page application for calculating expenses and incomes, helpful for keeping all records for the entire period. Role: front-end developer.

My task was: to create Transactions section, the ability to create new transaction and fill the table, sort ones by date and change current balance/summary.

### WORK EXPERIENCE
