I'm an Ukrainian illustrator. I've been drawing since I remember myself. Since 2020 I started taking some commissions and right after, drawing became a bit more than just a hobby.

I create digital illustrations on Ipad with Procreate for any needs. I'm a hardworking, responsible person and would be happy to bring any ideas into real life using my skills.

I can create:

- commercial and logo illustrations for business
- portraits
- fashion illustrations
- stickers for social media and messengers

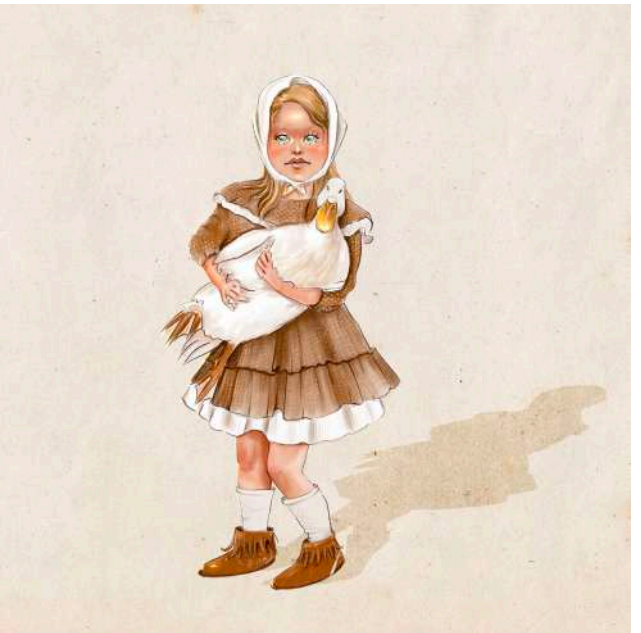

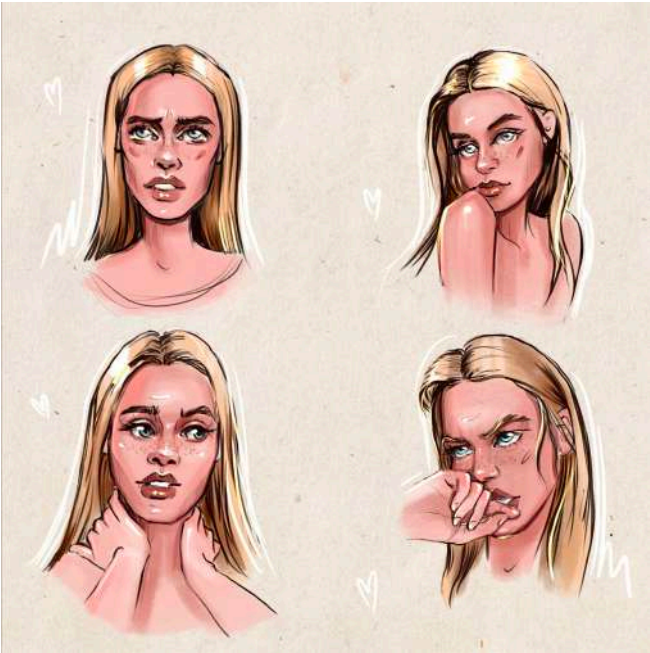

logo illustrations for bussiness

fashion illustrations

portraits

stickers for social media

more artworks you can find on my Insatgram @anna.kokoeva.art
