- Git

## LANGUAGE SKILLS

English: Intermediate

## ABOUT ME

I love clarity. Therefore, I want to write code in such a way that in a year I or any other programmer could quickly navigate it.

When doing work, I concentrate and give my best to one hundred percent in order to get as close as possible to the result of the experimental one.

Experience in other areas taught me to be consistent, find innovative solutions, work hard and achieve results. I am sure that this approach will help me become a professional in programming.

## COURSES

- Hillel Computer School (IT School) Frontend-Basic
- Hillel Computer School (IT School) Frontend-Pro
