## Frontend Developer

### TopMarketing - Frontend Developer

03.22-02.23 (11 months)

I created and developed the structure of online stores and landing pages.

Developed turnkey project functionality from scratch using React Redux, MongoDB.

I was engaged in the transfer of projects to Next JS, taking into account all SEO subtleties.

### Strada.one - Frontend Developer

01.21-01.22 (1 year)

A company that provides educational services for front-end developers.

It was an internship and an opportunity to participate in the testing of a unique educational project.

During the testing and completion of the project, I improved my skills in JS and created a few projects using React.

### Sotnik - PPC Specialist

06.20-01.21 (6 months)

Setting up and managing all types of Google Ads advertising campaigns.

Certified specialist in the Google Partner program.

### MarketArts - SEO Specialist

10.18-04.20 (1 year 6 months)

Promoted websites in search engines Google.

Implemented segmentation and email marketing in a big retail network.
