Education

2015 - 2020

Master Degree

Computer Engineering

Kharkiv National University of Radio
Electronics

Languages

Ukrainian - Native

English - Upper Intermediate

Danylo Datsenko

Python developer

I'm a Python developer with experience building web applications using Django and Django REST Framework, Flask, FastAPI using PostgreSQL, MySQL, MongoDB to work with databases. I'm also proficient in version control tools like GIT and know how to use Docker to deploy applications in containers as well as basic AWS services. I have commercial experience as a DevOps Engineer in an English-speaking team. I also have a master's degree in Computer Engineering - which helps me a lot in my work. I possess good communication and teamwork skills, as well as a willingness to adapt to new tasks and projects. I am always willing to learn and improve my skills.

Skills

- Python & OOP
- TDD, SOLID, DRY, KISS
- Algorithms, Data Structures
- Django, DRF, Flask, FastAPI
