- Creativity

Languages

- Ukrainian - native
- English - Intermediate
- Russian -native

SUMMARY

As a full stack developer, I would like to create useful and user friendly applications that combine the power of Node.js or Python with the flexibility and simplicity of JS.

During my studies, I participated in three team projects, putting into practice my skills in HTML, CSS, JS. also using knowledge of Python, I developed a web scraper for work and a chatbot parser for personal I enjoy learning new facets of programming and I hope to find a company where I can apply my knowledge and continue to grow as a developer.

PROJECT EXPERIENCE

[Pizzeria website](#), [Link](#) (HTML, SASS, CSS)

A website with responsive design is designed for quick online orders of tasty and healthy food. Role - developer of the main section and modal window.

[Cocktails party](#), [Link](#) (JS, HTML, SASS). App for cocktail parties. A large selection of drinks, with instructions for preparation and the ability to save favorites. Role - teamlead and developer, working with github, checking and deploying branches of the development team.

[Financial assistant](#), [Link](#) (React, Redux, JS, HTML, SASS,). This app is a financial assistant. It will help you optimize expenses and save up for your dream home. Role - statistics section developer.

[Task Pro](#), [Link](#) (JS, Node, React, Redux, HTML, SASS). This app can help you manage your tasks and time. Role - section developer.

Eshop, [Link](#) (Python, Django) A simple example of an online store with authorization, a catalog and a basket.

Web scraping, [Link](#) (Python) The application for parsing a website, searching for the necessary information and uploading to a file
