Vladimir Kusakin

Frontend Developer
Antalya, Antalya, Turkey

Summary

Technical skills :

Frontend development: React, JavaScript, jQuery, TypeScript, HTML5, CSS3, Bootstrap, SCSS(Sass);
Backend development: PHP(CMS), MySQL, Python, Django, PostgreSQL, Bash;
Version control system: Git, Mercurial(HG);

I have 9+ years of experience in web development and made many sites based on eCart, Real Estate, eCommerce types of concept.

I believe in long term business relationship and happy client that's why my revision policy is simple - "your full satisfaction". I love to work on challenging tasks that are related to something awesome and new in the market.

Currently, my greatest passion is to learn new technologies and software engineering concepts and designs also by applying them in my daily job when possible.

Please let me know if you want to discuss anything on my expertise. I will gladly respond it and really hope it will help you!
