Experience

UI/UX designer at Neshes Global Inc

Jun 2022 – Jun 2023 | London, England | Remote | Full-time

Company markets and launches brands, elaborated software/apps for different types of businesses.

I worked with a team, we designed SaaS/LMS platforms and apps/websites for e-commerce projects, both for IOS and Android. I took a part in conducting user research and usability testing to improve design decisions and user experience. Collaborated with development team to ensure that design were implemented accurately and efficiently.

Also company has software for hr-manager's and for financial statements for a brokerage firm for which I developed the design system and replenished the component library.
