EEU named after LesyaUkrainka,

2017 - 2020

Bachelor of Economics of management

MYKHAILO LYVAK

PYTHON DEVELOPER

SUMMARY

I am a Python developer with strong communication skills. In just one week of studying, I coded the Django project, DRF project was created after studying this framework just for a week and a half. In addition, at my previous job, I grow from the position of analyst to the head of the logistics department in six months. Therefore, you can count on me.

MY PROJECTS

Django project for managing restaurant kitchen service in which Cooks can create new Dishes & Dish types, and also specify, Cooks which are responsible for every Dishes cooking.

DRF api project for managing Cinema service. There are such features as JWT authenticated, admin panel, documentation, managing orders and tickets, creating: movies with genres and actors, cinema halls and movie sessions, and Filtering movies and movie sessions. In addition, this project is Dockerized.
