The Complete JS Course

Udemy

2008 - 2012

Bachelor of Financial Audit

Vinnitsia Institute of Entrepreneurship

Experience

2021 - 2023

Front-end developer

As a frontend developer, I have experience in creating dynamic applications using React and Redux, integrating REST APIs, and utilizing React-Router-Dom and MaterialUI for design and navigation.

I am well-versed in implementing flow-authorization, notifications, forms (using Formik and React Hook Form), and have a strong focus on writing unit tests.

I am also committed to ongoing code improvement through refactoring and bug fixing efforts to ensure the highest level of performance and user satisfaction.

Bogdan Mykhailov

FRONTEND DEV

About Me

I am a frontend developer with a focus on creating single-page applications using React.

I am dedicated to delivering high-quality and user-friendly solutions that meet client and end-user needs.

I am looking for opportunities in a company that values modern development practices and has a collaborative team environment.

Skills

JavaScript	HTML
TypeScript	CSS/SCSS
React	BEM
Redux	Git
RTK-Query	WebPack
Redux-Toolkit	Storybook
Rest-API	Styled Components
