# Oleksiy Nikolayenko

## Full Stack developer

Motivated and dedicated full stack developer with a strong passion for learning and building innovative web applications. Eager to contribute to a dynamic development team and apply my knowledge to real-world projects.

My personal moto is "Just start, and you'll succeed".

## Projects

### Car market

Using this website application, you may sell your car, buy a new or used automobile, and send a seller a message. By selecting the tags that interest you, you can read news about cars.

(Technologies: [React](#), [Redux](#), [SASS](#))

### Conditioner market

This page allows you to buy an air conditioner, request installation of it, and provide comments on certain goods and services. The website's administrator can administer the website, including adding, removing, and editing items and services, managing FAQs, and controlling comments.

(Technologies: [React](#), [Redux](#), [NodeJS](#), [Express](#), [MongoDB](#), [MaterialUI](#))

### Social network

With this app, you can make and maintain your profile, add friends, and have real-time chats with them over a web socket. New posts can also be made.

(Technologies: [NodeJS](#), [Express](#), [MongoDB](#), [TailwindCSS](#), [Socket.io](#), [React](#) [Redux-toolkit](#), [TypeScript](#))

### Foreign Words

You may practise word learning with this app.

(Technologies: [NodeJS](#), [Express](#), [MySQL](#), [TypeORM](#), [TailwindCSS](#), [React](#), [Redux-toolkit](#), [TypeScript](#))

## Education

### ○ 2006 - 2012 ( 5 years 6 months )

**National Technical University "Kharkiv Polytechnical Institute"**

Mechanical Engineer

Cars and automotive industry

### ○ 2022 - 2023 ( 7months )
