EDUCATION

Kyiv national university of culture and arts

SOUND ENGINEER

ACHIEVEMENTS

- Typing speed more than 65 wpm
- I lived in Israel for six months
- I learned to play the guitar in a week

SUMMARY

I'm a purposeful Python developer with a decent set of industry-valued skills and an immense craving for knowledge. I'm ready to work with Django, SQL databases, and GIT. I also have a good understanding of project architectures. Likewise, I have basic knowledge of websites development. I like to work with new technologies like AI, ML and new people, while also getting fresh insights that may benefit my professional path.

PORTFOLIO

[RESTAURANT KITCHEN SERVICE](#)

- Was written on Django
- Registration for user
- Managing cooks and dishes
- Enjoyable front and back ends

[LIBRARY BACKEND SERVICE](#)

- Was written on Django Rest
- Payment implementation
- Telegram notification on bot
- It was made by a small team

SELF-EDUCATION

Mate academy – Python development

Grokking Algorithms by Aditya Y. Bhargava
