English - Upper-Intermediate
Polish - Upper-Intermediate
Germany - Elementary
Ukrainian - Native

EDUCATION

- College of Economics and law (Lviv) Associate of Economics
- Python developer, Mate academy
- Python developer, SoftServe academy
- Full stack developer, Okten school

PROFILE

As a skilled Python developer, I have a diverse range of expertise that can be leveraged in different types of projects. My experience in both backend and frontend development, as well as with JavaScript and React, makes me a well-rounded developer capable of working on complex applications. Additionally, my leadership skills as a team leader in a group project demonstrate that I have the ability to guide and motivate a team toward successful project completion.

EXPERIENCE

Python developer

Sep 2021 - present

- Trello (Analog) task manager (Python + Django + Docker + Tests) [Video](#) / [Deployed here](#) / [GitHub](#)
- Restful API for web-cinema (Python, Django, DRF, Swagger, Tests) [GitHub](#)
- Restful API for web-library (Python, Django, asyncio, Stripe, Redis, celery-beat, Docker, Swagger, Tests) (There I was the head of the Group Project group) [GitHub](#)
- Car leasing platform (Python + Django) [Video](#) / [GitHub](#)
- Movies library (React) [GitHub](#)

Project manager

Car Leasing Business (Self employed), Sep 2019 - Sep 2022

- Did all needed accounting and contract management
- Acquired customers by independently doing marketing
- Increased the value of the company by expanding the car fleet from 1 to 14, using profits from leases
- Proactively paused active work in September 2021 to focus on studying Web Development

Sales manager

Online Store MarketUa, Jul 2014 - Sep 2019

- Set up online marketing from scratch using Google Ads, as well as social media management
- Expanded the business portfolio over time by including tools, car parts, gadgets and similar, in the offering
- Cost controlling via direct negotiation with suppliers
