● ABOUT ME

I am Shahin Mukhtarli, I started my education in the field of agricultural sciences at Azerbaijan State Agricultural University in 2017 and graduated in 2021. After finishing my university education, I started my master's degree in silkworm breeding in the same year and completed it in 2023. During my university years, I participated in many volunteer activities and in 2017 I volunteered at the "ASAN Service" government institution for 2 months. I completed my voluntary service by getting a first class certificate in December 2017. In addition, I specialized in this field and developed myself thanks to my interest in web software from a young age (12 years old).

HOBBIES AND INTERESTS

Music my hobby I like playing music and instruments such as guitar, piano, and violin, but I am not skilled in playing them. However, I am trying to learn and improve my skills. I believe that with dedication and hard work, I can become proficient in playing these instruments. The process of learning is always rewarding and helps me to grow as a person and musician. Whether I am performing for others or just playing for myself, I find joy and fulfillment in making music. I am excited about my musical journey and the opportunities that lie ahead for me to grow and develop my skills.

Outdoor activities Outdoor activities are both fun and healthy options for me. Among the activities I do in natural environments are options such as walking, running, cycling, camping, mountaineering, and fishing. These activities help me physically and mentally and allow me to discover natural beauty. Doing outdoor activities is always refreshing and revitalizing for me.

Self-improvement As an individual, I prioritize personal growth and physical activity. I find learning new languages challenging and rewarding, and it enriches my cultural understanding. Additionally, I engage in activities such as running, cycling, and yoga to develop discipline and focus. I continuously strive to challenge myself and reach my full potential.

DOST Job Center Volunteering is an integral part of life for people. Tree planting events are an important opportunity to contribute to the protection and preservation of nature and trees. I too have volunteered in this sense and participated in this event to display a responsible attitude towards nature and trees. Trees play a crucial role in providing breath and balance to nature. By participating in such events individually, everyone has the opportunity to help preserve nature and our future. I took this opportunity to increase my sensitivity towards nature by contributing.

EDUCATE YOUR FUTURE in ADAU As a university student, I also volunteered with elementary school students. I spent educational and entertaining time with them. By volunteering with younger students, I had the opportunity to make a positive impact on their lives and share my knowledge and experiences with them. It was a fulfilling experience for me to see their growth and enjoyment as we engaged in various activities together. Volunteering with children helps to cultivate the next generation and promote a sense of community and compassion. I am grateful for this opportunity to give back and make a difference in the lives of others.
