## Education

2019 - 2023

Kyiv Aviation Applied College  
BTECs (BEng)

Software Engineering

---

## Ux/ui Course

2023 (May - July)

HARD-SKILL DESIGN (HSD)

---

## Languages

English - Conversational

Ukrainian - Native

---

## Tools

Figma

Adobe Photoshop

Visual C++/C#

---

## Design Skills

Information architecture

UI/UX Design

Grid & Layout

Rapid Prototyping

Usability

Application Development

---

## Experience

My projects were a thesis on software development and design. I was developing a guitar tuner, a schedule viewer. I worked with a data-driven approach and used real photos I found on other user-generated content platforms. I wanted to avoid the problem of designing an unrealistic user interface that can be spoiled by unprofessional images. I prototyped, designed wireframes, and built a high-fidelity prototype.

---

## About Me

I am a junior UI/UX designer with six months of experience in this field and one year of training. My expertise lies in conceptualizing and designing attractive software products that are both aesthetically pleasing and highly functional. With strong problem solving and creative skills, I can offer effective solutions that meet the needs of both clients and the end user.
