- love studying
- hard-working
- responsible
- curious

## LANGUAGES

- English - Intermediate
- Ukrainian - Native
- Russian - Native

## SUMMARY

I am a Full Stack web developer looking for a full-time position in a friendly company, that will gladly help a young developer become an experienced specialist. I have knowledge and practice in using HTML, CSS, JavaScript, TypeScript, React and Node.js. I am a fast learner, responsible, and ready for challenging tasks. At the moment of my life, programming is the main occupation, where I use all my time to get new information. Ready to learn the technologies you need, and develop with you.

If I don't know something, I will figure it out, because I have been involved in sports for many years and I understand that in order to get something, you need to make efforts and time.

## PROJECT EXPERIENCE

Typemanian, [Link](#) [React, Redux, TS, Redux Thunk, SCSS Modules, Framer Motion, Node.js, REST API, Express, MongoDB]

Typing website, when you can test yourself in various modes, track your progress and improve your speed.

Phonebook, [Link](#) [React, Redux, TS, Redux Thunk, CSS Modules, Framer Motion, Node.js REST API, Express, MongoDB]

This app makes it easy to store and manage your contact list.

Used my own REST API on Node.js for contacts managing, registration and authorization. This makes it possible to add contacts to individual users. A website with a responsive layout. Used the CSS Modules to style my application.

Space News, [Link](#) [React, Redux, TS, Redux Thunk, Material UI, SCSS, REST API]

This application allows you to follow the most relevant and interesting news about space. A website with a responsive layout. Used the Material UI to create my application's interface.

Movie Mania, [Link](#) [React, JS, CSS Modules REST API]

This application allows you to find and select from a huge collection of movies you want to watch.

Filmoteka, [Link](#) [HTML, SASS, JS, REST API, Firebase]

This application allows you to create your own collection of watched and queue movies. There is an authorization functionality implemented thanks to Firebase, which I figured out myself and set up the project. Each user has their own private collection of favorite movies. A website with a responsive layout. Used the SASS preprocessor to style my application.

## WORK EXPERIENCE

Education Mentor

Logos IT-Academy | November 2022

## EDUCATION

VSP "ZEFK NU" Zaporizhka Polytechnic"

Software engineer | September 2019 - June 2023
