Profile

I am a graphic designer with 1+ year of non-commercial experience currently seeking a first remote role.

My passion for graphic design and illustration is evidents in my work, also I am a strong communicator and collaborator. I have a range of skills and experience related to both the creating of individual item designs (business cards, brochures, posters) and the creation of complex designs (books, calendars, branding). I have an academic background that includes a diploma of junior artist-designer, which enables me to adapt quickly to new projects and find authentic, pragmatic solutions.

Skill's summary

Designs and illustrations

- I can make coherent development of both individual visual solutions (covers of books, calendars, endpapers, spreads) and work on the complex design of layouts.
- Also I am experienced in working on book illustrations (flat, photo-collage), building a visual narrative, and developing a style that interacts with a book's storytelling.
- Have experience in branding development (logo development, search for a common style, key colors), including work with business cards, brochures, posters, etc.

Current skills

- Proffecional skills in Adobe Photoshop and Adobe Illustrator, have a basic level in Blender.
- Excellent knowledge a theory of colours and composition rules, good skills in digital painting and illustration in different styles (flat, realistic, photo-collage).
- I have solid communication skills and I am able to discuss a lot of issues.
- I am able to produce content on time, with attention to detail.
- I am a well-organized worker with the ability to perform various tasks, focus an attention on details and think creatively.
- Familiared with Zoom and Microsoft applications.
