*Qualification:* Certified Junior Courses

[Check certificates here](#)

### COURSERA BY GOOGLE

*Educational programs:* UX Foundations; UX Design Process: Empathize, Define and Ideate  
*Qualification:* Certified Courses by Google

[Check certificates here](#)

## EXPERIENCE

### FREELANCE DESIGNER (April 2023 - now)

I have experience creating a design for a mobile app in the automotive industry. Additionally, I worked on a design project for a European client as part of the "Rebuilding in Ukraine" presentation.

### CUSTOMER SUPPORT REPRESENTATIVE (April 2022 - April 2023)

*Location:* Remote (Office in San Diego CA)  
*Company name:* Big City Appliance

I have experience working in Customer Support for a year. My duties included maintaining communication with customers, providing regular feedback, and assisting in resolving any issues that came up regularly

### PRINTING DESIGN MANAGER (September 2021 - April 2022)

*Location:* Ukraine (Zhytomyr)  
*Company name:* My Print

With my experience designing practical and aesthetically-pleasing cases, clothing, and accessories, I have learned to create standout products in a competitive market. My marketing and branding background helps me understand how to apply design skills to different industries.

## UNPAID REAL PROJECTS

### UKLON (November 2022 - February 2023)

My UX/UI design experience taught me to analyze competitors, model user flows, create user-friendly products, and conduct user interviews. I also created questionnaires to understand user problems. Working on this project was invaluable, and I am grateful to the team for their support in implementing my ideas while keeping important details in mind.

### PAPAYYA STICKER LAB (December 2022 - March 2023)

Creating this e-commerce platform was a challenging task, especially when it came to developing a catalog and a fast purchasing process. To boost sales, I analyzed other online stores and created product cards. I put a lot of effort into organizing the catalog and unifying the brand concept through consistent visuals.

### SNEAKERMATE (April 2022 - August 2022)

My first project taught me the importance of understanding the design process for success. I applied studied methodologies and recognized their practical significance. Through this experience, I progressed from briefing to prototyping. I also learned small details, such as font pairing and color selection, are crucial for success.
