

SKILLS

- Creating React components and managing application state using Redux or Context API.
- Working with REST APIs to retrieve and send data to the server.
- Optimizing application performance using React.memo, useMemo, and useCallback.
- Working with CSS, including using CSS preprocessors (such as Sass) and component libraries (such as Material-UI).
- Integrating third-party libraries and tools, such as React Router, Axios, and Redux Toolkit.
- Using Git for code versioning and collaborative development.
- Using modern JavaScript and TypeScript languages.
- Developing applications using Next.js for server-side rendering and static generation.
- Creating responsive interfaces using CSS Grid and Flexbox.

HLIKLIKH ARTUR

FRONT-END DEVELOPER

I am a front-end developer with one year of experience in web development. My main technological stack includes React and Redux. I have in-depth knowledge of HTML, CSS, and JavaScript, and can create responsive and cross-browser interfaces.

I constantly improve my skills by learning new technologies and reading articles about advanced development methods. I am ready to work in a team and share my knowledge to achieve common goals.

One of my strongest qualities is my ability to learn quickly and adapt to new technologies and frameworks. This has allowed me to become proficient in React and Redux in a short amount of time, and I am always eager to expand my skillset. Additionally, I am a team player and believe in effective communication and collaboration to achieve project success. I am able to work independently and take initiative, but also value the input and contributions of my colleagues. Finally, I am committed to writing clean, maintainable code and staying up-to-date on best practices and industry trends. I am passionate about creating high-quality user experiences and take pride in delivering polished, well-designed applications.

I would be happy to join a company where I can apply my knowledge and experience in developing front-end applications on React and Redux.

EDUCATION

ODESSA STATE ENVIRONMENTAL UNIVERSITY

Obtained qualification:

Master of Science

Program Subject Area: **Computer Science and Information Technologies**

Educational Program: **Information Systems and Technologies**
2012-2018
