

# Andrii Kalinichenko

Frontend Developer

I am interested in developing my technical development skills. I want to learn how to create applications with the user in mind, to create applications with a convenient and intuitive user interface.

## COMMERCIAL WORK EXPERIENCE

February/2022 - Now

### Freelance frontend developer

I started projects from scratch. During development. I used a lot of different technologies:

- React Context for application state
- Strapi to manage the site
- Methods of payment and delivery
- Betting logic for users/customer
- Google/Facebook authentication
- Rest API
- Web Sockets
- Landing page using Gatsby with CSS animations.

August/2021 - February/2022

### Junior frontend developer in SpaceLab

I was working on the startup where I was creating an admin panel for marketplace. The technologies I used: HTML, CSS(SCSS), JS, React, Redux, Redux-Thunk
