

Mykyta Hilis

Junior Fullstack Developer

I am a beginner Fullstack developer with a desire to grow and develop, looking for a permanent job. I have skills in working with HTML/CCS, JavaScript, React, Node.js, Express.js and also have practical experience in following the Agile/Scrum methodology when working on team projects. I want to be part of a friendly and professional team where I can develop my skills, solve complex problems and constantly learn from experts.
