Olesia Hres

UI/UX designer

I am a junior web designer, who is eager to create well-planned websites, that will leave users with a memorable experience after visiting the website. I do full-cycle design: ideas, analyzing potential users, creating wireframes, and turning them into a future design with visual and user interface resolutions. I am looking forward to being part of your team and bringing my unique style and ideas to produce great and profitable projects.

Tools

- Figma
- Adobe Illustrator
- Adobe Photoshop

Hard skills

- Creating UI-kit
- Adaptive design
- Low and high fidelity wireframes
- Producing Components
- Creating mobile application

Soft skills

- Multitasking
- Creative thinking skills
- Communicative skills
- Organization
- Initiative
- Flexible

Languages

- English- upper intermediate
- German- pre-intermediate
- Ukrainian- native
- Russian- native

Project experience

Taras Shevchenko National University of Kyiv

Redesign

The website had an outdated design and was not user-friendly for students and applicants. To solve this problem, I spoke with students and analyzed the websites of the best universities in the world. As a result, I have created a user-friendly and understandable interface for users.

FreeTime

Web service, full cycle design

Web service for learning and work. The main goal was to create a simple and unified database of additional classes, hobbies, and courses for the entire country and even for people who have moved abroad. Where you can also work and find students.

Pancake-Bar

Landing page, full cycle design

This project is about designer-developer interaction, the main goal of which was to create a design and prepare it for transfer to the developer. In this project, all text was created by using Chat GPT, and some images were generated in Midjourney.

Easy Trip

Mobile application, full cycle design

We created a travel app that will help people quickly and independently create their own route based on the landmarks worth seeing, or choose a suggested route in the app according to their interests. During the creation of the application, constant Zoom meetings were held with a colleague, where we discussed the best solutions for the application.

Work experience

Chief State Inspector of the Department of Chamber Inspections (Kyiv)

May 2021- March 2022 (10 months)

- Checked more than 1,000 tax returns of factories every month.
- In the process of checking and detecting violations, issued penalties to enterprises, and canceled taxpayer certificates.
- Reception of taxpayers and assistance in solving problems related to tax legislation.
- Monthly submission of 6 reports on violators of tax legislation.
- Receiving an offer for transferring to the central office of taxpayers in the Kyiv region, as a result of constant training and self-improvement.

Education

- IT school GoIT

  UX/UI design

  2022-2023

- Bila Tserkva National agrarian university

  Bachelor’s in Law

  2016-2020
