Experience

Project 1 - Adopt Pet App “LittlePaws”

Project 2 - References Book Website “RefBook”

Project 3 - Afcon Water Company

Project 4 - Twigo Quiz Game

Project 5 - MedTalk Medical App

Project 6- DeliveryBox Delivery App

Project 7 - PetPace Pets’ Tracking App

The whole UX and UI design was created by myself
For my work I use Figma, Adobe Ps. and Adobe Il. Conducted quantitative and qualitative research on projects and their competitors, conducted interviews with users. Analyzed interfaces using heuristics. Worked on CJM, IAM and User Flow. Developed a prototype. Have experience with Scrum and Agile and how to present my work. Of course, except UX/UI and Web i well known with graphic Design

My responsibilities: Research, Interview with users, Creating User Flow, App Map, UX/UI Design and Prototype
