WORK EXPERIENCE

«MARZONI» Law firm /
Assistant lawyer

JULY 2020 - FEBRUARY 2021

Iullia Krat Law Office /
Assistant lawyer

OCTOBER 2021 - PRESENT

I have three years of experience as a Assistant lawyer. During this time, I have gained valuable knowledge in Commercial law, Civil law, Labor law, Administrative law, and Tax law. I am familiar with the ukrainian court process, and I also had the opportunity to conduct a court process through the "Electronic Court" subsystem (note - participation in a court case online).

In addition, I have experience in contractual, antimonopoly, and tender activities, and I am adept at writing procedural documents. I am also able to provide both oral and written consultations.

When necessary, I have conducted investigations within the scope of the attorney's powers.

UI/UX Designer

APRIL 2021 - PRESENT

A motivated UI/UX designer with experience in designing user interfaces for web and mobile applications. Skilled in creating user-friendly designs using modern design principles and technologies. Proven ability to create intuitive and aesthetically pleasing user experiences.

Before the war in Ukraine, mostly I worked as a lawyer, but life circumstances forced me to change my legal specialty to UI/UX design. Despite the change of specialty, I have been able to succeed and become a strong web designer.

I am a detail-oriented, highly motivated and creative designer. I have a strong understanding of user experience and interface design principles, as well as a great knowledge of HTML and CSS. I have experience creating wireframes and prototypes, developing user interfaces, and designing user flows. I am also experienced in usability testing and design research.

SKILLS FOR THE POSITION OF UI/UX DESIGNER:

Design:

- Knowledge of user experience design principles and design patterns;
- Ability to create user interface designs that meet user needs;
- Creative problem-solving skills;
- Ability to create user flows and information architecture diagrams;
- Experience creating design systems;
- Understanding of design trends and development processes;
- Ability to create low- and high-fidelity prototypes;
- Attention to detail when it comes to design;
- Proficiency in conducting user;
- Knowledge of Google Material Design guidelines and knowledge of Apple Human Interface Guidelines;
- Modular grids, color combinations, knowledge of composition, and typography.

Technical:

- Good understanding of web technologies such as HTML, CSS. Learning JavaScript and React;
- Experience with wire-framing and prototyping tools;
- Excellent knoweledge of Figma and proficiency in Adobe Creative Suite (Photoshop, Illustrator, etc.);
- Knowledge of user interface design standards and best practices;
- Ability to develop clean and intuitive user interface designs.

Collaboration:

- Ability to work in a team environment;
- Excellent communication and interpersonal skills;
- Ability to take constructive feedback;
- Ability to work independently and manage multiple tasks;
- Interest in staying up to date with the latest design trends;
- Ability to work with users to understand their requirements;
- Ability to collaborate with developers to ensure design is implemented correctly;
- Experience working in an iterative development process;
- Ability to facilitate design workshops and brainstorming sessions.
