- English - Intermediate

# Vira Hryhorieva

## UI/UX Designer

Hi, I'm a UX-UI designer. I don't have a lot of experience, but I love to learn and learn new things quickly.

Let's create really cool projects together, which will bring not only income, but also pleasure.

## PROJECT EXPERIENCE

---

### ON JOURNEY

It was a team project. We conducted competitor analytics, created personas and user flows.

A guest interface, a host interface, and a payment interface were created for the project. An adaptation for the tablet and smartphone was also created.

### FLOVERLOVER

To create a project, I considered competitors and conducted analytics. Created prototypes and designed the design.

### SHOP ON

This is a simple mobile shopping application. At the first stage, I conducted a competitor analysis, color psychology and compiled a user flow. After the wireframes, I created the UI and added competitive features.

## WORK EXPERIENCE

---

Beauty salon "Velvet"

2011 - 2019

Owner

- Purchase of materials
- Quality control
- Payment of taxes
- Administration
