## PROFILE

As an accomplished web developer with over three years of experience, I have gained expertise in a range of front-end technologies, such as JavaScript, jQuery, HTML, CSS, SASS, and SCSS. I possess a keen eye for detail, and I use this skill to develop dynamic and visually appealing web pages that are not only functional but also user-friendly.

Throughout my career, I have worked on a wide variety of web development projects, ranging from building responsive websites to optimizing web pages for speed and performance, including basic SEO. My commitment to delivering innovative solutions, along with my passion for creating high-quality work, has helped me exceed client expectations.

I am highly proficient in utilizing my technical skills to develop and maintain user-centered web applications. I have a proven track record of collaborating with cross-functional teams, and my strong communication skills enable me to work seamlessly with colleagues and stakeholders. With my ability to remain current with industry trends and technological advancements, I am confident in my ability to create efficient and effective web solutions that meet business needs.

## SKILLS

- Programming languages: JavaScript (including ES6+), jQuery
- Markup languages: HTML5, CSS3, SASS, SCSS
- Version control: Git, GitHub
