EDUCATION

INSTITUTION: MYKOLAIV COLLEGE OF
TRANSPORT INFRASTRUCTURE

Specialty: management of transportation
processes in railway transport

Degree: junior bachelor

Dates: September 2019 - May 2023

ADDITIONAL:

Frontend course at Mate academy,

Reactjs.org, Codewars

Being a person with a logical-mathematical type of intelligence, I decided to connect my life with Frontend. Over time, I have gained valuable experience in working with various technologies such as JavaScript, Typescript, React, Node.js, HTML, CSS, and Preprocessors. I have an insatiable thirst for knowledge and I take pleasure in constantly learning and exploring new technologies. My participation in Math Olympiads has further increased my passion for challenges, making me particularly adept at tackling complex problem-solving tasks.

DEVELOPER EXPERIENCE

Frontend developer (January 2022 - Now)

- created a user-friendly interface with a cross-browser and adaptive layout
- created a pixel-perfect layout based on Figma design
- set up a database with sequelize
- constantly reviewed the code of colleagues, and my code was also reviewed by colleagues

PORTFOLIO

GADGETS ONLINE STORE

[Demo link](#) [Frontend part](#) [Backend part](#) [Design](#)

Technologies: HTML, SASS (SCSS), JavaScript, TypeScript, React.js, React Router, Node.js, Express.js, Sequelize, Render.com, Fetch API
This is a team project. Backend and frontend parts were created from scratch.

CHECKLIST APPLICATION

[GitHub code](#) [Demo link](#)

Technologies: HTML, SASS (SCSS), JavaScript, React.js, TypeScript, Fetch API, BEM

This is an electronic checklist where you can add your tasks, delete them, mark as completed, and rename them.

THE MET MUSEUM

[Demo link](#) [GitHub code](#) [Design](#)

Technologies: HTML, SASS (SCSS), BEM, JavaScript

This is a landing page, created for museum, located in the USA.

ADDITIONAL FACTS

- ZNO: Ukrainian language and literature: 191, geography: 186
- Sport: played table tennis professionally for 3 years. Also took part in competitions
- English: upper-intermediate
- Winner of Math Olympiad
- 500+ hours of programming practice
