Hello, my name is Yana.

If you are reading this, I am already grateful for paying attention!

I have been in digital for about two years, circumstances in our country caused a little suspension in my digital development, but now I am actively going back.

Most of all I draw in the raster in Procreate program, the main direction is children's illustration and personal stickers for social networks (my works are attached below)

Main features: stress resistance, responsibility (I take deadlines seriously), I study very fast, I am open for corrections and criticism (because it increases my skill)
I strictly follow subordination
I have great imagination and creativity.

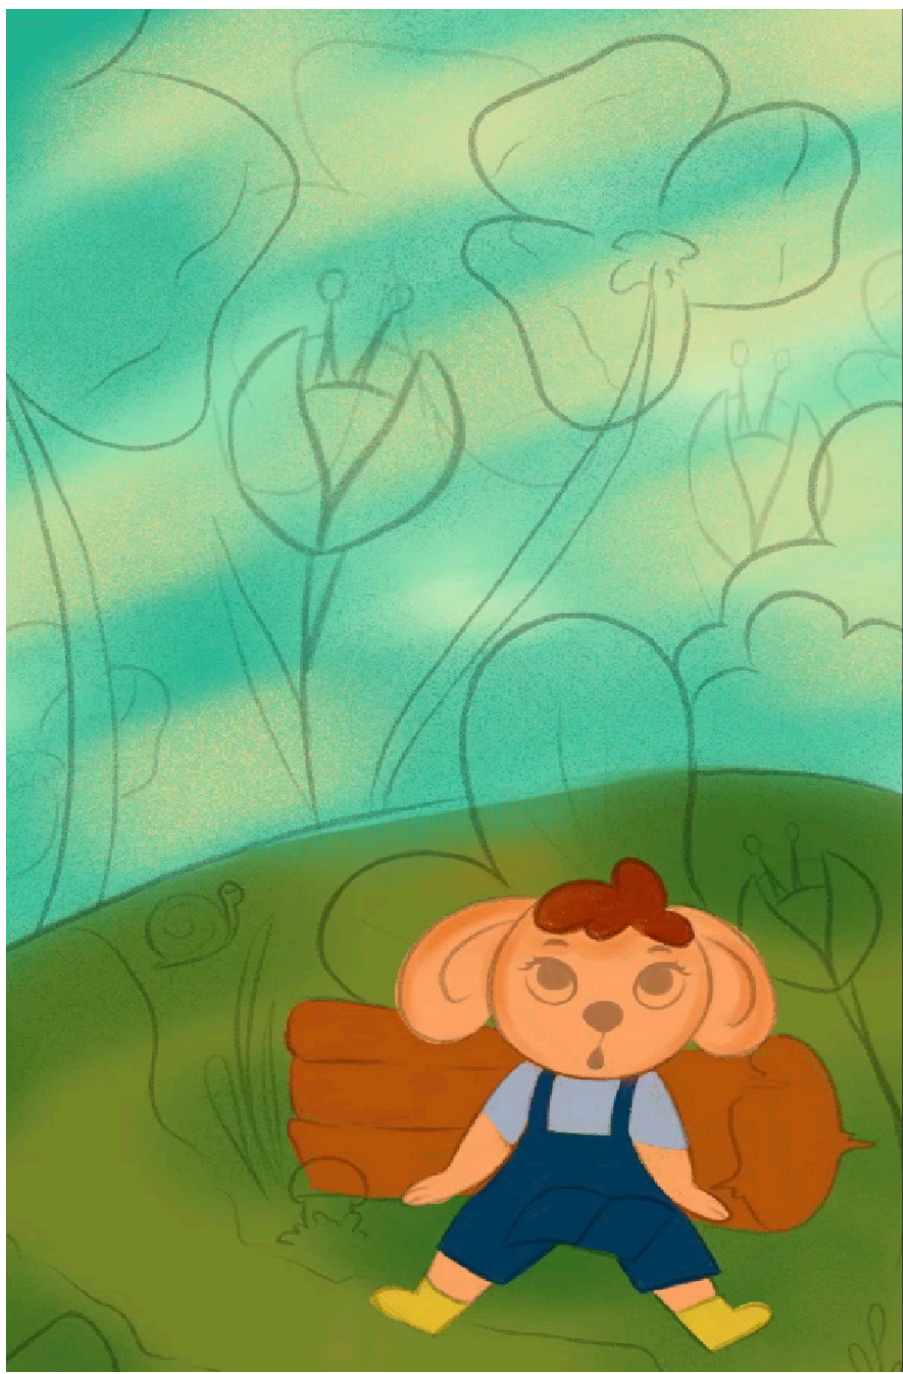

I will be very glad to be a part of your team.

I don't know English perfectly, but I know how to use a translator perfectly)
