## SUMMARY

I am a curious and hardworking UX/UI designer with 1-year experience in a design agency. I like to work both in a team and independently. It gives me great pleasure to realize that my personal decisions will be used as the basis for the products I work with.

## EXPERIENCE

### League design agency

**UX/UI designer, August 2021 - August 2022**

Design of interfaces of mobile and web-applications

Prototypes, user flows and app map creation

Conducting research of competitors

Conducting UX audit

Creation of responsive design

Work with the design systems and creation a UI kit from scratch

Design for app marketing in stores (App Store, Play Market)

Icons creation

### Platform for recruiters

**UX/UI designer, June 2021 - July 2021**

The task of the project was to create desktop and mobile version for platform for recruiters. I held a briefing with client and collected necessary information. Then, I conducted research, including competitive analysis, user interviews with recruiters and candidates, personas and their user stories and CJM. Finally, I created lo-fi prototype and design.

### Recycling mobile app

**UX/UI designer, April 2021 - May 2021**

The main goal of the project was to create a mobile app, that would help interested people find relevant information on a single resource. JTBD, CJM, Kano model, Information architecture and User flow were created to satisfy their needs. After prototyping I conducted User testing in Maze and created modern minimalistic UI.
