About Me

As a dedicated Junior Front-end developer with a strong focus on HTML5, CSS3, JS, and React, I am committed to delivering results through effective development practices. My proficiency in problem analysis and solution-oriented thinking allows me to troubleshoot and resolve technical issues with precision. I strive for excellence in my work and consistently seek opportunities for professional growth. With intermediate in English, I am an adaptable team player who is eager to contribute my skills to create innovative and user-friendly web apps.

Project Experience

Phonebook

[React (Hooks, Routers, Redux, Redux Toolkit), Material UI.]

A simple phonebook connected to Swagger backend API - you can register, log in, add, remove or filter contacts, log out.
