Front-End Developer

full employment

About:

I have 5 years of experience in commercial software development for programmable logic controllers. During this time im worked both in a team and independently. Currently I want to change my occupation and see myself as a Front-end developer.

I already have some practical experience. I am developing a website for an enterprise with statistics on the operation of electrical equipment. Technologies used, client-side: HTML, CSS3/LESS, Vue.js, Vuex and VueRouter. Server part on ASP.Net Core and MS Sql, client/server data exchange via HTTP.

Technical skills:

- Front-End development: Vue.js3, Vuex
- JavaScript (ES5, ES6).
- HTML5, CSS3, Less.
- Tools: npm, gulp, webpack, visual studio, visual studio code.
- Graphic editor: Figma, Photoshop.
- Basics PHP, C#
- Git

Education:

Odessa National Academy of Food Technologies Odessa National Academy of Food Technologies

Master's degree, Automation Engineer Technology/Technician Master's degree, Automation Engineer Technology/Technician

Sep 2011 - Dec 2018

Work Experience:
