## Education

2019-2023 bachelor's degree in "Design and Architecture" at KNUBiA

2012-2016 art school №3.

## Experience

### January 2022 - now

Creation of a website-portfolio for a photographer. Creation of an online ice cream store and its adaptation, creation of landing pages for a designer furniture store, a luxury cosmetics store, an online merch clothing store and a humorous mobile app-game.

### March 2022 - March 2023

Cartoon illustrator in the Cyber Bricks company. I created full cartoon scenes or separate backgrounds and characters.

### March 2021 - September 2021

Realist artist in the G-Art company. I created portraits of people, animals, landscapes, architecture in the realism.

## Professional goals

I focus on the simplest, most intuitive and most productive user interaction with the websites. I always want to balance between the beautiful appearance of the site and its functionality. I am always interested in new design trends and interesting solutions, I also have a lot of my own ideas and a great desire to turn them into reality. I know the principles of working with color, typography, composition, proportions.
